

**EEI**

# Annual Convention/Expo

Edison Electric Institute joined by Canadian Electricity Association  
Hilton Hawaiian Village, Honolulu • June 1-4, 2003

# Charting the Future Course

Never before has the energy industry faced such serious challenges. In 2003, there will be decision-making on several critical issues:

- system reliability and infrastructure protection;
- oversight of finances and governance;
- Federal and state regulatory initiatives on market structure;
- and national energy and environmental legislation.

How well we understand and cope with these issues will determine the success of both your company and the industry. Attend EEI's Annual Convention/Expo and help demonstrate Power by Association<sup>SM</sup>.

### This event is designed to:

- create business and networking opportunities;
- provide you with new ideas through Executive Forums;
- give you insight on critical issues by facilitating exchanges with industry experts;
- and showcase the latest technologies and services from top industry suppliers.

### Keynote Speakers include:

**Lord John Browne** – Chairman of BP, the holding company of one of the world's largest petroleum and petrochemicals groups.

**Dewitt Jones** – a world-class photojournalist with National Geographic and an Academy Award-nominated director.
