

YOU TALKED... THEY LISTENED... **WE DELIVERED!**

Introducing The World's Most Compact, Full-Featured, Power Quality Recorders.

When you said suitcase-sized power quality monitors were too big and too bulky, PMI did more than just listen. We created the most compact line of solid-state recorders in the industry (try fitting three of our competitors recorders into a lunch box). Every PMI scanner is Palm™ PDA compatible and comes with a free copy of our user friendly WinScan analysis and reporting software. It's also backed by our industry-leading 24/7 tech support and unbeatable customer service. Next time you need reliable, solid-state technology compact enough to fit any application, talk to someone who can deliver. Call your PMI sales representative today.

ViP

- Real-time harmonics
- Waveform capture
- Records 4 channels voltage, 4 channels current
