

Dispose of your PCB wastes safely & economically at THE PCB incinerator site in Ontario

Our facility is conveniently located just off
the 401 near Colborne Ontario

Call our specialists today!

For safe and efficient disposal of your PCB
and non-PCB wastes.

No more worries about residual oil!

Gary Steacy Dismantling Ltd.
processes:

- All transformers of any size from
0 ppm to askarel
- Light ballasts
- Cable
- Capacitors
- All PCB wastes

If a contaminated transformer is going to
fall through the cracks-this is the place
for it to fall.

We supply self contained
bins for your oil filled or
drained non PCB scrap
transformers. Keep your
yard clean!
