

Here's how to get hands-on experience

**with thousands
of new electrical
transmission and
distribution products!**

**2003 IEEE/PES
Transmission & Distribution
Conference & Exposition**

Dallas, Texas, USA

Conference Dates September 7-12, 2003

Exposition Dates September 8-10, 2003

It's like visiting 500 plants at once and experiencing a world of new products!

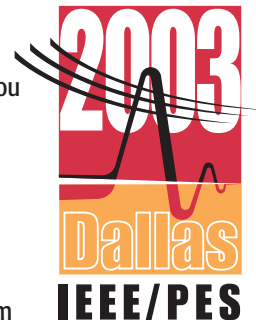

This dynamic technical conference and exposition has grown to be three times larger than any such

event in the United States and one of the most important in the world. And there are thousands of significant reasons! If you've been here, expect to see much more than ever before. If you haven't, this event may arm you with knowledge that you'll use the rest of your career.

- Experience hands-on, interactive demos of products, services and technology.

- Explore exhibits from more than 500 companies, many with *brand new* ideas.
- Discover countless products and services in a Texas-sized venue bigger than four football fields.
- Record numbers are expected, providing you unlimited networking opportunities.
- Interact with top engineers and high-level executives from international corporations
- Hear leaders in the industry discuss vital issues that will be affecting your career.
- Gather invaluable technical knowledge from hundreds of panel and poster sessions.

- Enjoy Dallas's world-class restaurants, shopping, theaters, museums, sporting events and more

Blazing Trails in Energy Delivery and Services
