

**CABLE  
BLOCKS  
by  
JMS**

**Why use wood or other products that can deteriorate or burn? James Murray Supply offers single, triangle, and universal cable blocks. Our blocks do not burn, are UV resistant, offer high mechanical strength, are resistant to most chemicals, have a wide temperature range, and are available from stock!**

**AMPS ABUNDANT  
Complete Selection of Power Rectifiers and Thyristors**

Equipment down for lack of the proper Power Semiconductor? Obsolete, discontinued, hard to find? Amps Abundant specializes in a complete selection of power rectifiers and thyristors (SCR). We offer equal to or better than the original device. Savings up to 70%. Stock over 95% of the time. Our staff has over 150 years of combined experience in power semiconductors.

For more information contact:  
 Amps Abundant

**NORTHERN TRANSFORMER**

**NORTHERN TRANSFORMER  
Quality Liquid Filled Power Transformers**

Northern Transformer supplies liquid filled, power transformers to over 80 utilities in Canada and the United States. Each transformer is custom designed to meet the specific requirements of the customer and each unit is manufactured with quality materials and workmanship.

In addition to supplying new units, we also rewind and refurbish all manufacturers products within our manufacturing range of 750 kVA up to and including 30 mVA with a maximum voltage of 138 kV. For new units we offer tamper-proof units up to 44kV, dual primary and secondary voltages, autotransformers, on load and off load tap changers, oil, Silicone or R-Temp.

For more information contact:  
 Northern Transformer Inc.  
 163 Jardin Drive,  
 Concord, Ontario L4K 1X5

**BOLDSTAR INFRARED SERVICES  
Professional Infrared Inspection**

Boldstar Infrared Services has been providing Ontario with a professional infrared inspection service since 1998. Specializing in electrical utility and in-plant predictive maintenance inspections, Boldstar can supply all of your infrared inspection requirements. Boldstar features state-of-the-art full colour inspection equipment along with clear and concise reporting. Professional, dedicated and proven. Give us a call or visit us on the web.

**PURE METAL GALVANIZING  
Canada's Largest Custom Hot Dip Galvanizer and a Leader in Providing Cost-effective Corrosion Protection**

From huge switchgear components to small castings and hardware, every part of an article is fully protected with the total immersion zinc 'Hot Dip' Galvanizing process.

ISO 9002 REGISTERED  
 Pure Metal Galvanizing has three conveniently located facilities in Southern Ontario to meet a variety of zinc galvanizing needs — including centrifuging and 'pickle and oil' processes.

For detailed information regarding procedures and specifications:  
 Toll free: 800-263-8737

**HUBBELL CANADA INC.  
ALYTD06200R0051**

**Chance Line Tension Disconnects**

The Chance Line Tension Disconnects are single phase Hook-stick operated switches available for voltages up to 38kV, 200kV BIL and 600 amps continuous current. The ALTD Switches features lightweight ESP Insulators, low profile design, rigid copper blade, integral corona ring and rugged end fittings.

Now they are available with separate mechanical and electrical NEMA pads.

**RITTALL  
Maxi-PLS 3200 Busbar  
Power Distribution**

Rittal's new Maxi-PLS busbar system is ideal for designers and system integrators, who need high current power distribution in large enclosure systems without having to bend, drill or cut the copper. Maxi-PLS busbars fully integrate in to Rittals SV-TS8 enclosures, with a choice of either roof, floor or rear mounting. This fully modular system will deliver a high strength, high load and low cost solution.

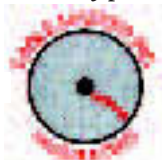

With a combination of current rating from 1600amps to 3200amps and the extreme high profile durability of the copper bar, Maxi-PLS is the ideal choice for motor drive systems, power distribution and DC power distribution. Maxi-PLS can be used by non busbar specialists to assemble air circuit breaker enclosures, enclosure systems for Siemens, ABB, Mitsubishi, Merlin Gerin as well as Moeller air circuit breaker units, all using standard off the shelf products.

**FLIR SYSTEMS  
Infrared Imaging Systems**

FLIR Systems manufactures, sells, rents, calibrates and services infrared imaging systems in Canada.

FLIR Systems combines the strengths of AGEMA and Inframetrics to develop the premier Thermography Solution. The ThermoCAM PM 695 captures both thermal and visual images with autofocus and editable text messaging. After saving over 800 images, simply "drag-n-drop" file into Reporter analysis software and report is complete in seconds.

Please take advantage of our "First-Time" Rental Special. Rent a camera for two weeks and receive the third week at no charge.

Certification Training is available.

**Rittal TopTherm**

**A New  
Generation  
of  
Air Conditioners**

Rittal Systems Ltd recently announced a new generation of air conditioners - the Rittal TopTherm. Rittal knows that heat and dust are significant risk factors for modern electronics and demand reliable cooling. Highlights include an attractive grille, master slave control, door interlock, remote diagnostics, optimized air routing and two controller versions. Designed with a unique blend of functionality and aesthetics, Rittal's TopTherm air conditioners convey output efficiency and performance strengths. TopTherm is available in cooling outputs from 1700 to 13,600 BTU.

For more information about Rittal's new TopTherm air conditioners, log on to [www.rittal.ca](http://www.rittal.ca) or email us at [rittalmark@rittal.ca](mailto:rittalmark@rittal.ca) or Tel: 1-800-399-0748

**PINPOINT  
RFI & TVI**

The Radar Engineers **Model 250 Ultrasonic Locator** was designed specifically for pinpointing powerline arcing and corona. The handheld, self-contained instrument pinpoints RFI and TVI sparking from the ground. The one-piece unit includes a speaker, meter and parabolic dish. It is easy to operate, very precise and extremely sensitive.

**Cable 3000**

**CABLE 3000  
Primary Cable Testing and Fault  
Locating Equipment**

We specialise in sales and service of top quality US and European primary cable testing and fault locating equipment.

- TDRs Thumpers Burners
- Hipots Seismic Detectors
- Phase Identifiers
- Sheath Fault Locators
- Cable Length Meters

Looking for contract fault locating service because you can't purchase equipment or get enough faults in a year to justify it?

Call Walter for help.

**CABLE MASTER INC.**  
**3M/AEMC/HDW Regional**  
**Distributor**

We specialize in Training and Sales of a full range of 3M/HDW/AEMC equipment

- 3M Dynatel Cable/Pipe/Fault Locators
- 3M EMS Markers and Locators
- 3M Confined Space Monitors
- HDW Fault Locating Equipment and TDRs.
- New, Demo or refurbished units
- Lightweight, compact and rugged
- ISO 9002 Registered
- We have 35+ years experience
- Complete line of AEMC instruments
- Hi-Pot testing 0-130kv DC
- Fault locate all types of cables

Providing turnkey integrated solutions for utilities and industries specializing in electrical power systems automation and SCADA. Projects consist of design, development and implementation for system arrangements of PLCs, RTUs, IEDs (Intelligent Electronic Devices), SCADA PC based HMI software, LAN/WAN communications and relational databases.

From the substation to the web user for real-time and historian data

ESAC leads the industry in innovative integrated system solutions based on technology, service and value.

**OPTIMUM ENERGY PRODUCTS LTD.**  
**ELITEPro Portable Load Profile Meter**

ELITEPro is a 600V, 6000A battery powered portable logger that is capable of measuring W, kWh, A, V, VA, VAR and Power Factor. (50/60 Hz) Its ELOG 2002 software is used to set up and communicate with the logger, and analyze the data.

Real-time data viewing and long term data recording are its strengths. Also, ELITEPro does Wave Form capture (128 point) and Harmonic Capture (to the 63rd).

The ELITEPro has data storage capability of either 30,000 or 120,000 data points.

- Internal storage of all energy values, single and three phase
- ELOG2002 software for data analysis
- Communications ready w/optional 14400 BAUD modem
- Full line of CTs available from 5A to 6000A, Split core, clamp-on and flex-CTs.
