

AC HIPOTS

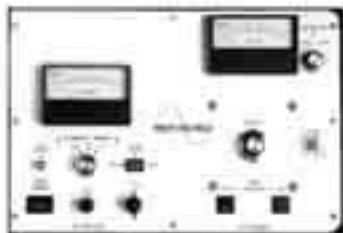

Your Testing Job Just Got Easier!

Unique one piece, cable output design

We offer the top unit for testing vacuum bottles, switchgear, linemans safety products, hot sticks, and anything else requiring AC hipoting. Our AC hipots are smaller, lighter, and more portable than others.

Easier to Use

Our units are the smallest and the lightest in the industry. We offer the only single piece, cable output 50 kV hipot industry wide. Some offer a 60 kVac vacuum bottle tester that is actually a ± 30 kV output. They may be suitable for testing bottles but little else.

Control Panel Layout

Our units are smaller, lighter, less expensive, more versatile, and are favored by utilities, testing services and others.

Size: 19" w x 11" d x 15.5" h

Weight: 65 lbs.

Other High Voltage Products

- DC Hipots • Oil Testers • Resonant Sets
- VLF AC Hipots • Trumpers/Flader
- HV Megohmmeter • Bucket Truck Testers

One piece design with a 25' shielded cable output.

Standard Models

30 kVac @ 1 kVA 10 kVac @ 3 kVA

30 kVac @ 3 kVA

50 kVac @ 3 kVA 100 kVac @ 3 kVA

Higher voltage and kVA ratings available
