

**SCHWEITZER ENGINEERING LABORATORIES, INC.
SEL-547 Distributed Generator Interconnection Relay**

Schweitzer Engineering Laboratories, Inc. introduces the SEL-547 Distributed Generator Interconnection Relay, designed to provide utility-grade protection of distributed generation (DG)/utility system connections.

Although distributed generator systems have a built-in control system for normal operation, the efficient, low-cost SEL-547 Relay protects against abnormal conditions when using the distributed generator in all operating modes including peak shaving, base loading, islanding, and emergency backup.

LIZCO SALES
Electrical Power Equipment Specialists

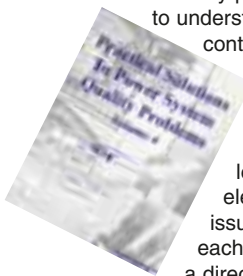

BUY-SELL-LEASE-RENT
New Oilfilled Transformers ---IN STOCK!
New "TLO" Unit Substations
13.8kV and 27.6kV
New Station Class Transformers
44kV and 27.6 kV
New Padmount Transformers
27.6kV / 13.8kV / 4.16kV
Large "in stock" inventory on website
- New/New surplus/refurbished
- Oilfilled and dry type transformers
- High and low voltage switchgear

For more information contact:
Toll Free: 1-877-842-9021

THE ELECTRICITY FORUM
Offering Technical Publications With Information On Today's Leading Electrical Issues

The Electricity Forum has over 15 years experience in publishing technical books which provide up-to-date information to electrical industry professionals on the many issues involved in the design, operation and maintenance of modern electrical equipment and systems.

Our books provide information on the latest issues and technologies that electrical industry professionals want to understand. Each book contains a variety of papers and articles, written by some of North America's leading experts on electrical industry issues. In addition, each book will include a directory of companies offering products and services related to the book subject.

Visit our website bookstore to view the complete list of available publications, www.electricityforum.com

THE ELECTRICITY FORUM
Transmission and Distribution Product Directory and Buyer's Guide On the Internet

Looking for a fast way to find manufacturers and suppliers of electrical products and services? Then visit the Transmission and Distribution Product Directory Buyer's Guide at the Electricity Forum Web site. This guide covers over 1,000 product listings and up-to-date information on the companies that make these products.

Access the Guide at:
www.electricityforum.com

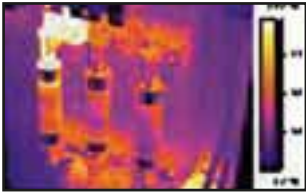

For more information about listing your company on the guide, contact:

FLIR SYSTEMS

Infrared Imaging Systems

FLIR Systems manufactures, sells, rents, calibrates and services infrared imaging systems in Canada.

FLIR Systems combines the strengths of AGEMA and Inframetrics to develop the premier Thermography Solution. The ThermoCAM PM 695 captures both thermal and visual images with autofocus and editable text messaging. After saving over 800 images, simply "drag-n-drop" file into Reporter analysis software and report is complete in seconds.

Please take advantage of our "First-Time" Rental Special. Rent a camera for two weeks and receive the third week at no charge.

Certification Training is available.
